Spring 2026

Ady with our new brushcutter

Cherry-Plum—the first blossom of spring—common in Snape

Graham, Georgina & David planting daffs in memory of June Fisher

After the gloomy wet winter, it's good to see signs of spring. Longer days, bird-song, blossom & blooms from all the bulbs we've planted over the years. Spring also means subscription renewals, due 1 March! If you could renew promptly please it would really help Mark and Brenda.

Here are our events for the coming year – we would love you to join us.

Sat 14 March - 10am – tree thinning at Priory Wood. Removal of some trees to give the better specimens room to grow and develop.

Wed 15 April - 6pm – conducted tour of Maple Farm, Kelsale to learn how organic farming particularly benefits wildlife & the environment.

Tues 19 May—5pm – our 3rd visit to SWT Martlesham Wilds. The diggers have been in and it'll be fascinating to see the reserve's continued development.

Wed 27 May - 7pm – migrant bird walk—SWT Snape Marshes and Snape Warren. A good chance to see and hear swifts, whitethroats, sedge & reed warblers, chiffchaffs, cuckoos, nightingales & more. Led by the Walducks.

Tues 9 June - 7pm – annual Snape Marshes wildflower walk & orchid count.

Wed 17 June – 2pm – Visit to Bedfield Hall - £24 incl. tea & cakes.

Sat 18 July – 2.30pm – Summer Garden Party, Abbey Farm

We also intend to run monthly evening bat walks from May. Hopefully the weather will continue to improve so we can all enjoy being outdoors in nature.

Best wishes **GreenSnape** Committee.
